BLISS COFFEE LOUNGE: STILL BREWING AFTER THE STORM

Opened One Month Before the World Shut Down — Still Here. Still Building. Still Brewing Community.

In February 2019, when the world still felt steady and untouched, Bliss Coffee Lounge opened its doors with a simple mission: to create a space that felt like home.
One month later, history shifted.
As the world entered uncertainty and small businesses faced unimaginable pressure, Bliss stood at the edge of what many would call impossible timing.

But community is stronger than chaos.
Founded by heart — fueled by resilience, and more espresso than sleep — Bliss became more than a coffee shop. It became a refuge. A meeting place. A reset button.
Through shutdowns, outdoor tables in the cold, mask mandates, supply shortages, and late-night doubt, one thing never changed:
The people.
Seven years later, Bliss is still here — not just serving coffee, but serving connection.
And this Spring/Summer 2026, we celebrate not just a new season — but survival, growth, and community.

@blisscoffeelounge

Fun facts about Bliss

Some of our first customers are still regulars today.
Every corner of Bliss carries our energy — because we didn't just open it.We built it.
We personally select our coffee beans and oversee roasting and mixing ourselves — every cup starts with intention.

Community & Support

Bliss was never just about coffee. It is about creating a space where people feel seen, welcomed, and at home.
Every seasonal menu reflects this intention — warmth in every detail, creativity in every flavor, comfort in every cup.
